La Orortava 2026

May 2026

La Orortava is a historic town nestled in a beautiful valley of banana plantations. You'll be amazed by its historic center, declared a national historical and artistic landmark due to its buildings and monuments. We also want to highlight the Hijuela del Botánico, a wonderful garden with tropical plants.

The Corpus Christi Festival (June 2026): During these festivities, the streets and main square of the town are covered with intricate carpets made of brightly colored flowers and volcanic sand,

TOWN

forming religious and decorative designs that amaze all visitors. The Town Hall Square hosts the main sand carpet, created with natural sand collected from the slopes of Mount Teide—an impressive work that requires weeks of preparation.

VISION FAB

*Cinematic storytelling
Weddings · Fashion · Brands*

Fabio is a photographer born in Rome and currently living in Tenerife. His work ranges from social reportage, events, fashion to travel photography.

The photographer uses a sharp line to divide the frame in two, achieving a striking effect. We highlight the balanced and very natural lighting, without strong contrasts or excessive saturation. Portraits in full sunlight are never easy, but Fabio handles them superbly here.

Among his recent works, the photographic session she carried out backstage during the first edition of Tenerife Moda más sostenible in Garachico stands out.

La Orotava

La Orotava, a traditional town with a rich colonial history. Visit the Town Hall, a 19th-century neoclassical building; and the famous Casa de los Balcones (House of the Balconies), an 18th-century mansion with a beautiful interior courtyard featuring carved wood. Reservations are recommended for visits to the latter.

The town preserves nine watermills from the 17th and 18th centuries. Two of them are still operational, and one of them, the La Máquina mill, can be visited to learn more about gofio, the popular Canarian grain. Without a doubt, it is one of the most beautiful and historically and culturally significant places in Tenerife. To learn more about this town in Tenerife, you can take this free tour, where a guide will provide you with interesting information about the places to see in La Orotava.

Very close to La Orotava is the Humboldt viewpoint, from which you can enjoy spectacular views. There you will also find a café with views of the sea, Mount Teide, and Puerto de la Cruz.

The name is no coincidence. Over two centuries ago, in June 1799, the German scientist and naturalist Alexander von Humboldt stopped in Tenerife on his voyage to the Americas. Although he only stayed a few days on the island, he was deeply impressed by the natural richness of the valley. In his writings, he described it with enthusiasm, comparing it to the most fertile and beautiful landscapes he had ever seen.

His brief visit left a lasting mark: so much so that, centuries later, this viewpoint was dedicated to him, paying homage to his romantic and scientific vision of nature.

BEE(S) ... POWERFUL

Rita Calero: Editor and Director of Más Mujer Magazine since its creation in August 2012. She is the creator of the Más Mujer Awards. The Más Mujer Awards is her way of recognizing the diverse women of the Canary Islands who have contributed to the development of our society. In the Canary Islands, we are proud to have a large number of successful women in their fields who have become role models, most of them unrecognized for their work and achievements. We give them visibility.

Más Mujer Awards started in 2017.

"Giving visibility to women cannot be considered trivial; society needs us and it is only right that it knows us."
